

Connecting to Cumberland Valley's Public Wireless Network

1. Open the list of available wireless networks on the device.
2. The wireless network **Public** will be available in the list.
3. Connect to the **Public** wireless network.
4. Once connected, open an internet browser and navigate to any web site. The browser will redirect the device to our **Acceptable Use Policy** page. See example:

Welcome to Cumberland Valley School District

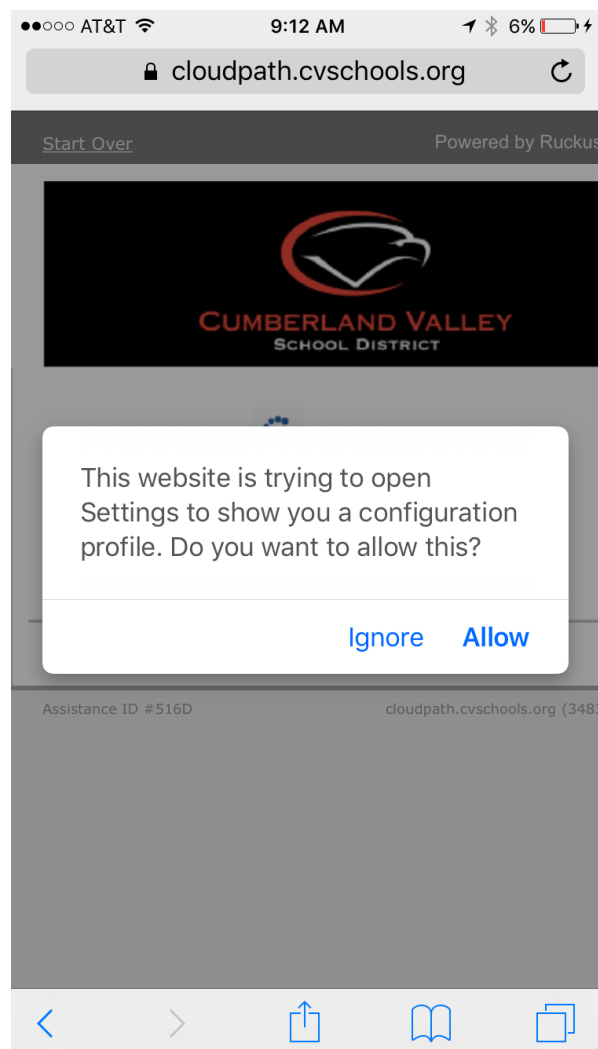

While Cumberland Valley School District (CVSD) is providing wireless connectivity, the District offers no guarantees that any use of the wireless connection is in any way secure or that any privacy can be protected when using this wireless connection. Use of the CVSD wireless network is entirely at the risk of the user. Cumberland Valley is not responsible for any loss of any information that may arise from the use of the wireless connection or for any loss, injury or damages resulting from the use of the wireless connection. All users of the Cumberland Valley School District's network are bound by the district's "Acceptable Use Policy" (AUP Policy No.815) and the "Acceptable Student Use of Personally-Owned Devices" (Policy No.237). By clicking, "ACCEPT" to the left, you are agreeing to all of the above cautions and policies as they pertain to non-district devices.

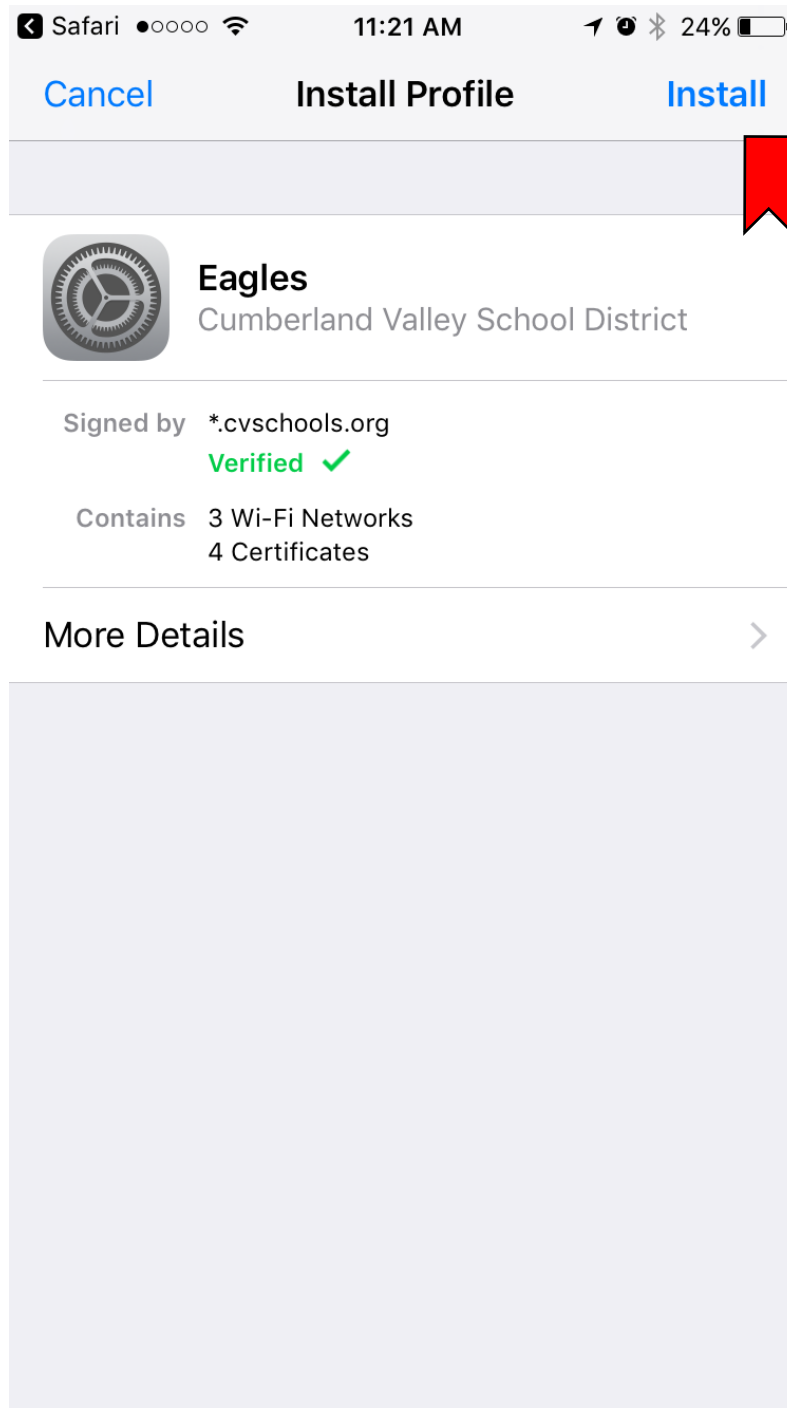

I agree to the Terms & Conditions

Accept >

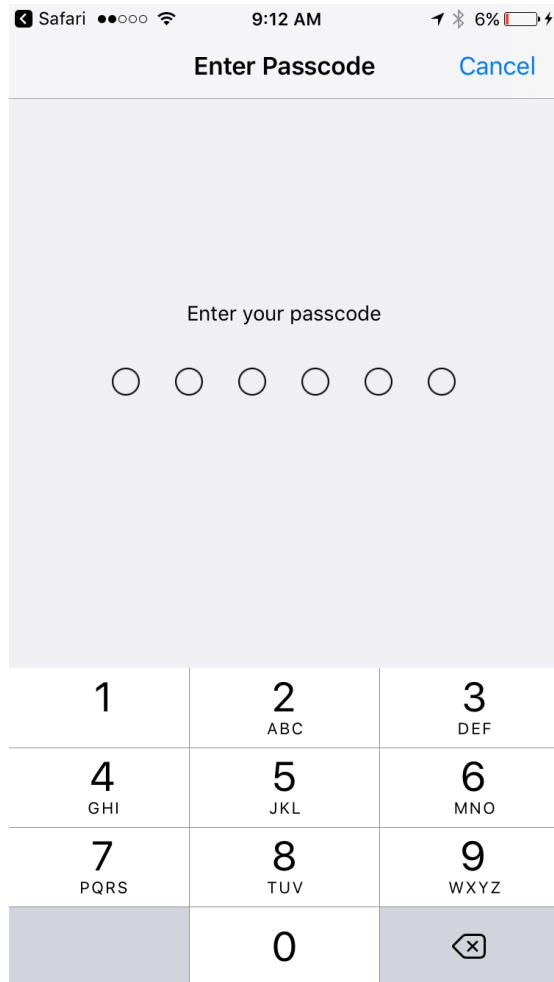

5. Read the **Acceptable Use Policy (AUP)**, check the box to show you accept the terms and conditions and click **Accept** to proceed.
6. The device will then be redirected to a page that will download and install the necessary certificates for both joining the device to the network and browsing secured internet pages (Google, YouTube, Bing and Yahoo). See example:

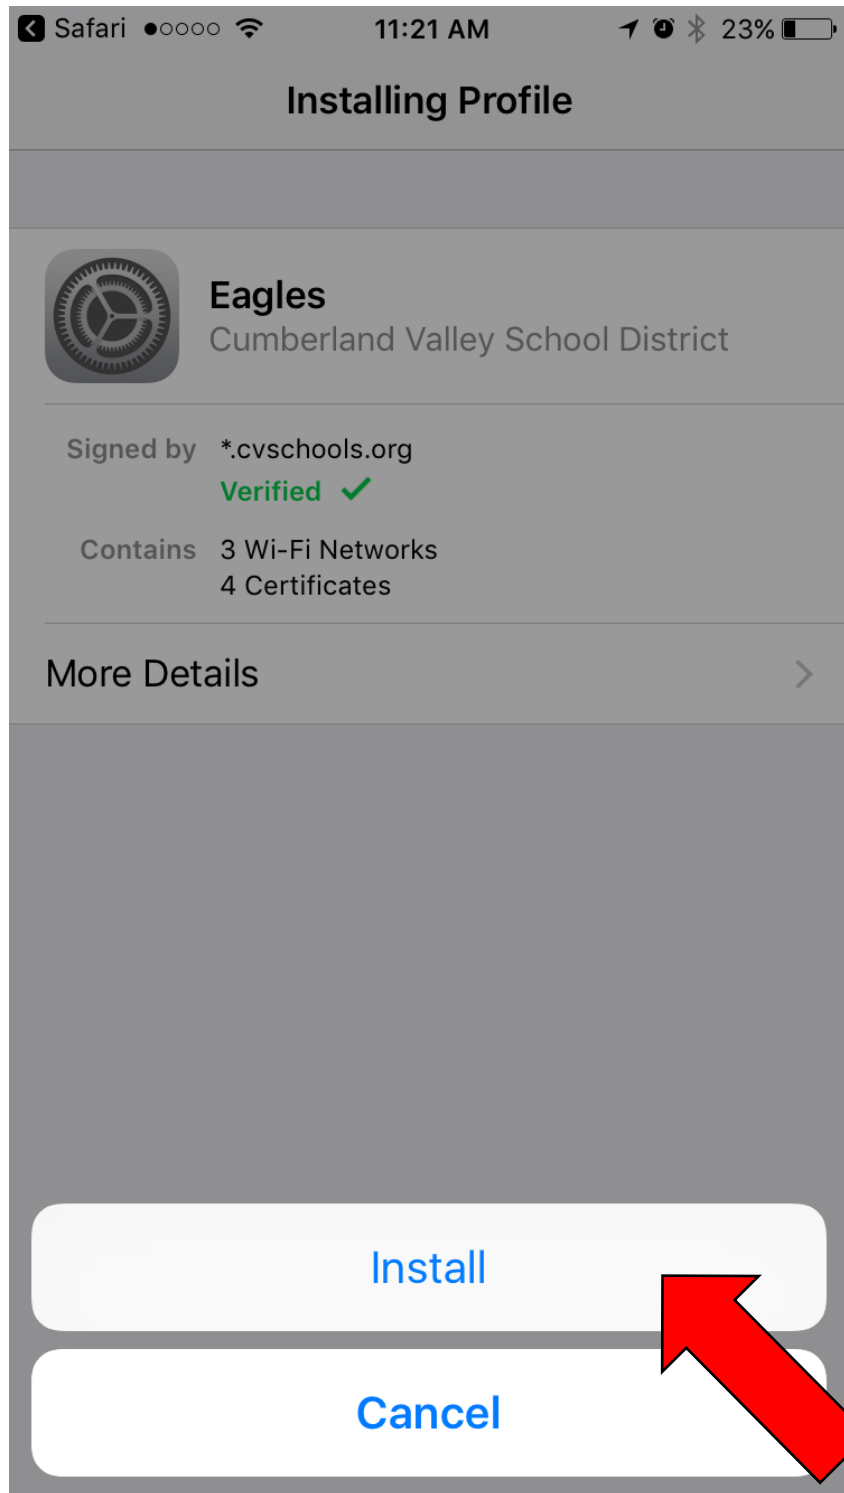

7. You will then be prompted to install the certificate. Make sure to select Install from the upper-right hand corner of your screen.

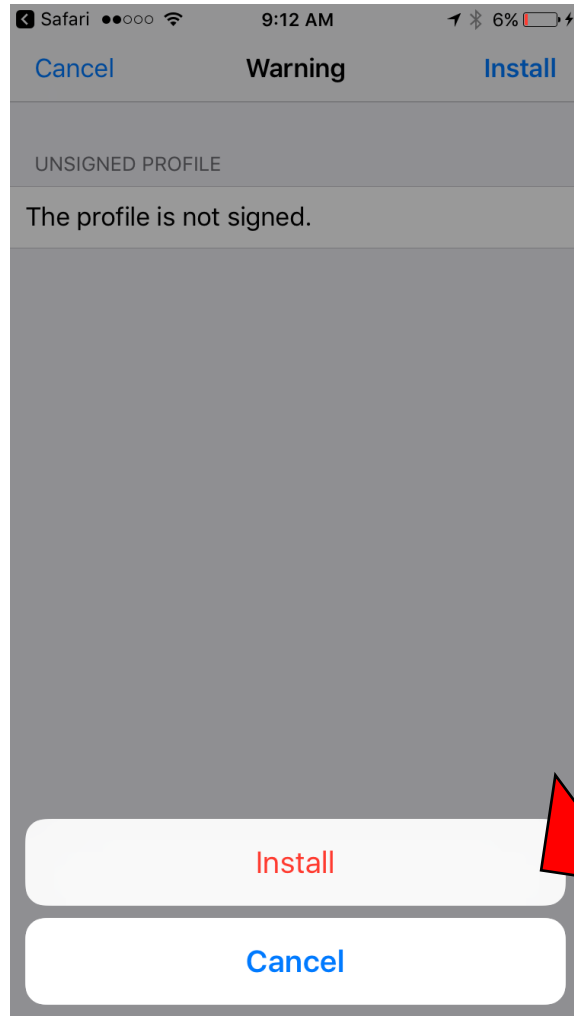

8. You will then be prompted to enter your password.

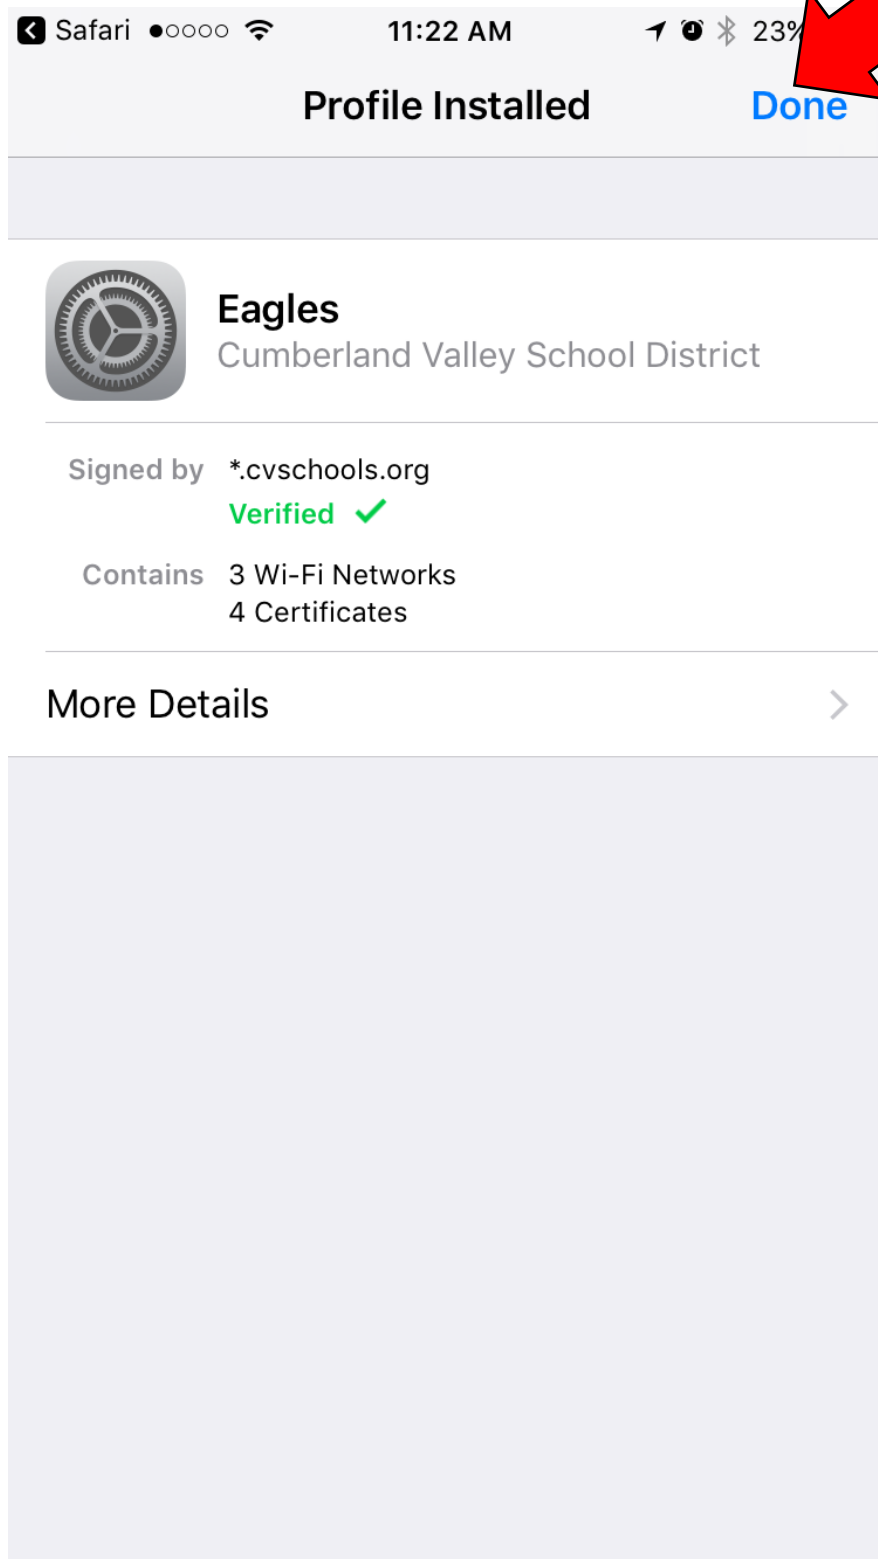

9. Select **Install** in the upper right hand corner of the profile page.

10. Select **Install** again.

11. Select **Done**.

12. Press your home screen, go to **Settings**, go to **Wi-fi** and choose **Eagles** from the list. Below are the step by step directions you will see in the final step.
