

# LET'S STAY CONNECTED

The chart below illustrates the various ways you can stay connected with Cumberland Valley School District.

	Channel	Type of Information	Location
Emergencies & General Info	 <b>Email (Parents and Guardians)</b>	The District sends direct emails regarding emergencies, transportation delays, updates, e-newsletters, and general information to parents/guardians. Building-level communication may also be issued via email.	Parents/Guardians are automatically subscribed based upon info in Skyward.
	 <b>Phone (Parents and Guardians)</b>	Calls during the school day or early morning are for emergencies or important information, such as school closings/delays or absence notices. CV recognizes that calls for general info are often inconvenient, so this information is typically communicated through email or social media.	Parents/Guardians are automatically subscribed based upon info in Skyward.
	 <b>Text Messages (Parents and Guardians)</b>	In cases of emergencies, transportation delays, and other important/urgent information, the district sends text messages to parents/guardians who have opted into this service. Because we are limited in characters, texts often refer the recipient to email and/or website for additional info.	Parents/Guardians must subscribe.
