

Tryout criteria for Cumberland Valley Boys' Soccer

1. Academic achievement and School conduct: Student Athletes must work to achieve their fullest potential in the classroom. Grades are part of the process. Behavior in the classroom and in the hallways must reflect the Boys' Program goals. Our guidelines are:

* Be respectful and kind to your fellow classmates. Look for ways to make another student feel safe.

* The opportunity to get an education is a gift. Always look for ways to actively improve yourself as a student and succeed in your classes.

* Every choice you make in School can better yourself and your team, or hurt yourself and your team.

We will select players who will make these positive choices.

2. Positional needs and playing time potential in our system will be assessed. Attacking ability (1v1 and combination abilities) / Defending ability (1v1 and group defending). Players need to embrace the role asked of them at CV.

We will select players who can attack and defend at a high level.

3. Our team motto is *all-together strong*. Iron sharpens Iron – we want to make each other better.

We will select players who play for the team and NOT themselves.

4. Varsity and JV players will be assessed in the fall with a timed run. Information about this assessment will be released by May of each year.

We will select players who work hard in the offseason to pass these tests.

CV Boys Soccer – est 1974
